BCSE-001 | Alkyne agarose resin, 50% slurry

For research only!

Baseclick No: BCSE-001
Product name: Alkyne agarose resin, 50% slurry
CAS No: n.a.
Appearance: white slurry
Storage Conditions: 2-8 °C, do not freeze
Shelf life: 12 months unopened after receipt

Formulation
Enrichment target: Azide-modified proteins
Format: Batch or column purifications
Activation level: 10-20 μmol/mL
Bead size: 50-150 μm
Support: 6% cross-linked agarose
Formation: 50% slurry
Preservative: 20% ethanol
