

BCMI-005 | Na-Ascorbate (baseclick grade)

For research only!

Baseclick No: BCMI-005

Product name: Na-Ascorbate (baseclick grade)

CAS No: 134-03-2

Molecular formula: $C_6H_7NaO_6$

Molecular weight: 198.11 g/mol

Purity: $\geq 99\%$ (iodometric)

Appearance: white to slightly yellow crystals

Solubility: aqueous solution

Storage Conditions: 2-8 °C, store dry

Shelf life: 12 months unopened after receipt

Application

Used as reducing agent for $CuSO_4$ (BCMI-004) to perform click reactions in aqueous media
