

BCMI-008 | Solid reactor

For research only!

Baseclick No: BCMI-008

Product name: Solid reactor

CAS No: 7440-50-8

Molecular formula: Cu

Purity: ≥ 99% (trace metal analysis)

Appearance: copper colored solid

Solubility: insoluble solid catalyst

Storage Conditions: RT, dry

Shelf life: 12 months unopened after receipt

Application

Solid catalyst for CuAAC reactions
